

Uniform Construction Code of New Jersey

Effective January 5, 1998, the Uniform Construction Code of New Jersey introduced Subchapter #6, which is the Rehabilitation Subcode. This subcode enhances the feasibility of remodeling existing structures that do not comply with today's standards.

The following adopted codes are currently in effect:

Building & Fire

- International Building Code, 2021, New Jersey Edition
- International Residential Code 2021, New Jersey Edition

Plumbing

- National Standard Plumbing Code, 2021
- International Fuel Gas Code, 2021

Mechanical

- International Mechanical Code, 2021

Energy

- International Energy Conservation Code, 2021, New Jersey Edition

Electric

- National Electric Code, 2020

For more information on the codes listed, please visit [Codes and Regulations from the NJ Dept. of Community Affairs](#).
