

## **SHOPRITE'S COVID-19 PREVENTATIVE SAFETY MEASURES**

As you know, the well-being of our customers and associates is our number one priority. To protect our patrons and dedicated associates, we have proactively undertaken a series of enhancements to create the safest shopping environment possible.

Our stores have implemented the Centers for Disease Control and Prevention (CDC) recommended protocol to reduce the spread of COVID -19 and implemented our own enhanced deep cleaning process on an increased schedule throughout each of our locations.

Additionally to our deep cleaning procedures, we have implemented the following measures; The installation of Plexiglas shields at every register, the pharmacy, customer service and open food counter.

The designation of special registers for our elderly and immuno-compromised customers.

Providing masks and gloves to all our associates.

The posting of social distancing reminders throughout the store.

Requiring associates to practice social distancing where possible.

Placing floor markers for safe distancing at the register.

Utilizing the overhead messaging system to continually remind patrons to keep a safe distance from each other.

Adding additional sanitizing stations and cart wipe dispensers with in the store.

Continually monitoring the number of customers within our locations to help maintain appropriate social distancing policies.

When necessary, our Managers and Loss Prevention team temporarily restrict entrance to our stores to help alleviate customer build up at the registers.

They find that this enables customers to shop for their essential items, check out in an efficient manor and maintain appropriate distance from one another.

Thank you for the opportunity to reiterate all the steps we are taking to keep our customers and associates safe and for understanding we are doing our best given these extraordinary circumstances.
